Getting your research on the policy agenda – Overcoming common gaps in KT approaches

3rd Annual Applied Public Health Chairs Meeting
Ottawa, ON

Panel discussion | June 2017

Florence Morestin
National Collaborating Centre for Healthy Public Policy
Gap 1 – Not considering *all* the relevant actors

- Getting your research on *whose* policy agenda?
- Who makes the public policy decisions that your research could inform?

=== Take a broad view ===

(Contandriopoulos et al., 2010; Morestin, 2015; Smith, 2013a, 2013b)
Gap 1 – Not considering *all* the relevant actors

=> Getting your research on *whose* agenda?
   – Relative power, feasibility, congruence, risks...

(Lindquist, 2001; Morestin, 2015, 2017; policy advisors, personal communications, Fall 2016)
Gap 2 – Not putting yourself in their shoes *enough*

- Get a grasp of their *agendas and contexts*
  - Organizations / individuals

Ongoing monitoring...

- … to inform your KT strategy
  - Participate in *their processes*
  - Relate (as much as possible) to *their framings*

=> Respond to *their* needs

(Policy advisors, personal communications, Fall 2016; Roxon, 2017)
Gap 3 – **Not enough** team work

- **Collaboration to refine** your KT strategy
  - Brainstorming: Your team + collaborators
    - Diversity of ideas
  - Fresh perspectives of new team members

- **Collaboration to implement** your KT strategy
  Other allies beyond your collaborators?
  - Outside of / within government
    ⇒ Complementarity of roles

  “Developing alliances across consumers, clinicians, advocates and researchers will always be very powerful. The same proposal from multiple groups gives your argument weight and depth”

  (Nicola Roxon, former Minister for Health, Australia)

(Lindquist, 2001; Morestin, 2017; Roxon, 2017)

A few resources

- Enlightening resources about how political circles view and use scientific evidence
  - Haynes et al. (2011, 2012)
  - Katherine Smith’s work (e.g., 2013a, 2013b, 2014)
  - Paul Cairney’s blog https://paulcairney.wordpress.com/
  - Interview of a former Minister for Health (Roxon, 2017)

- NCCHPP’s Knowledge sharing and public policy project
  Knowledge syntheses + sets of questions to guide development of KT strategy
  Work in progress... more to come!
