**2016**

Mantoura, P. (2016). *Population mental health: What?* [Web Presentation]. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/704/Video.ccnpps?id\\_article=1571](http://www.ncchpp.ca/704/Video.ccnpps?id_article=1571)

**This 20-minute web presentation examines the following questions:**

- **What is a population mental health approach?**
- **What is the link between mental health and mental disorders?**
- **What is mental health and what are its determinants?**
- **What is meant by promoting mental health and reducing inequalities in mental health?**

**It also identifies resources that can serve as examples of some of the elements discussed.**

Mantoura, P. (2016). *Main types of needs of the public health workforce for population mental health.* Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/553/Publications.ccnpps?id\\_article=1569](http://www.ncchpp.ca/553/Publications.ccnpps?id_article=1569)

**This document is the final report on the main types of needs identified by the broad public health workforce as they relate to population mental health. The strengths and needs identified in this document come from two types of needs assessment: direct encounters with practitioners and an online questionnaire to which 453 actors from the broad public health workforce responded to express their needs with regards to population mental health.**

**2015**

Mantoura, P. (2015). *Population mental health: Why.* [Web Presentation]. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/704/Video.ccnpps?id\\_article=1469](http://www.ncchpp.ca/704/Video.ccnpps?id_article=1469)

**This 20-minute web presentation answers the question: Why the importance of mental health for public health? It also identifies and facilitates access to key documents underlying the policy momentum internationally and nationally and influencing public health practices in this field.**

Mantoura, P. (2015). *Sharing public health practitioners' needs in population mental health: Highlights and avenues for action.* Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/553/Publications.ccnpps?id\\_article=1467](http://www.ncchpp.ca/553/Publications.ccnpps?id_article=1467)

**This briefing note discusses strengths and needs in the area of population mental health, as identified by public health actors in a needs assessment process conducted by the National Collaborating Centres for Public Health. This document provides an analysis of the needs and strengths expressed by the 335 respondents who completed the English version of our needs assessment questionnaire, as well as those who participated in face-to-face encounters.**

**2014**

Mantoura, P. (2014). *Defining a population mental health framework for public health.* Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/553/Publications.ccnpps?id\\_article=1268](http://www.ncchpp.ca/553/Publications.ccnpps?id_article=1268)

**This framework contributes to supporting the integration of population mental health within public health objectives and mandates across Canada. It frames the notion of population mental health following Kindig and Stoddart's (2003) population health framework. As such, it integrates the determinants of mental health, mental health outcomes, and the policies and interventions that aim at improving mental health in the population and reducing inequalities in mental health.**

Mantoura, P. (2014). *Framework for healthy public policies favouring mental health*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/553/Publications.ccnpps?id\\_article=1203](http://www.ncchpp.ca/553/Publications.ccnpps?id_article=1203)

**This briefing note proposes a framework for healthy public policies favouring mental health (HPP-FMH). The paper defines what is meant by the expression "healthy public policies favouring mental health," presents the determinants of mental health to illustrate the areas where public policies might have the most influence, and concludes with a brief overview of evidence to support HPP-FMH.**

National Collaborating Centre for Healthy Public Policy. (2014). *Scan of mental health strategies across Canada*. [Online tool]. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Available online at: [http://www.ncchpp.ca/553/publications.ccnpps?id\\_article=1257](http://www.ncchpp.ca/553/publications.ccnpps?id_article=1257)

**This scan was produced to provide an overview of population mental health strategies that are being developed in Canada.**

**Update: June 2018**

The National Collaborating Centre for Healthy Public Policy (NCCHPP) seeks to increase the expertise of public health actors across Canada in healthy public policy through the development, sharing and use of knowledge.

The NCCHPP is one of six centres financed by the Public Health Agency of Canada. The six centres form a network across Canada, each hosted by a different institution and each focusing on a specific topic linked to public health. In addition to the Centres' individual contributions, the network of Collaborating Centres provides focal points for the exchange and common production of knowledge relating to these topics. The National Collaborating Centre for Healthy Public Policy is hosted by the Institut national de santé publique du Québec (INSPQ), a leading centre in public health in Canada.

Production of this document has been made possible through a financial contribution from the Public Health Agency of Canada through funding for the National Collaborating Centre for Healthy Public Policy (NCCHPP). The views expressed herein do not necessarily represent the views of the Public Health Agency of Canada.
